- Low power consumption, multiple configurations are ENERGY STAR qualified
- Handles 80 or 58mm paper roll sizes
- Features print options to reduce paper usage
- Improved cover design protects against foreign objects
- Industry-leading four-year limited warranty

High-speed, high-resolution text and graphics printing. The PR-04 prints both receipts and graphics at the same high speed of up to 300mm per second. And it's the first printer in the industry to offer 16 levels of grayscale to ensure clear, crisp graphics. Reliability you can count on, the PR-04 delivers best in-class reliability so critical in high volume environments. Easy to use. Easy to maintain. The PR-04 is packed with easy-to-use features including drop in paper loading, an autocutter, easy-to-read LEDs and an improved cover design to protect the printer from foreign objects. More features, more flexibility The PR-04 also features auto speed adjustment for smoother printing, margin and line reduction functions to reduce paper usage and costs, and more barcode options including 2D. In addition, it comes with dual interfaces (USB and one additional interface) for flexibility in handling interface transitions. ENERGY STAR qualified Multiple configurations of the PR-04 printer meet ENERGY STAR requirements, making it the first POS thermal printer to be ENERGY STAR qualified.¹ Backed by the leader The PR-04 is backed by Epson's industry-leading service and support programs and comes with a four-year limited warranty.
